Design Specification:

Delta Pins are designed to fix insulating materials to smooth surfaces such as air ducts, attenuators, chambers and enclosures. Also known as Stuck up pins, their use allows proper and speedy quality fixture without the risk of corrosion.

Model No.	Base (Inch)	Nail Size (Inch)	Unit of Measure (Pieces/box)
DP-1 3/8-1 3/8	1 3/8 x 1 3/8	1 3/8	1000
DP-1 3/8-1 1/2	1 3/8 x 1 3/8	1 1/2	1000
DP-1 3/8-1 3/4	1 3/8 x 1 3/8	1 3/4	1000
DP-1 3/8-2	1 3/8 x 1 3/8	2	1000
DP-1 3/8-2 1/2	1 3/8 x 1 3/8	2 1/2	1000
DP-2-1 1/4	2x 2	1 1/4	500
DP-2-1 1/2	2x 2	1 1/2	500
DP-2-1 3/4	2x 2	1 3/4	500
DP-2-2	2x 2	2	500
DP-2-2 1/2	2x 2	2 1/2	500
DP-2-4	2x 2	4	500

Delta Pins comprise of an aluminum nail (copper or steel alternatives on request) firmly mounted on a galvanized steel base which is backed by a self-adhesive, closed cell polyethylene foam substrate. Galvanized spring steel fastening clips (locking washers) are also supplied with the hangers available in different sizes, resistant to water, detergents, alcohols, aliphatic solvents and aromatic solvents.

The adhesive foam backing is of the highest quality and the locking Delta fastener clips ensure an outstanding assembly. In order to meet all requirements, Delta Duct Air Conditioning produces a wide range of pin lengths.
